MISSION

At Nabir VecTrance Global, our mission is to engineer intelligence into the systems that power tomorrow's world. We operate at the intersection of advanced technologies, strategic thinking, and critical infrastructure to help governments, industries, and institutions stay ahead of global challenges.

Integrity

We uphold the highest ethical standards in every project and partnership. Trust is not just expected - it's engineered into every process we deploy.

Precision

Our designs are built to endure complexity, risk, and real-world impact. From first draft to field deployment, accuracy drives everything we do.

Innovation

We innovate with purpose - combining practical engineering with forward-looking intelligence. Our breakthroughs are designed to solve, not just impress.

Collaboration

We work together with clients, partners, and stakeholders - aligning our expertise with your goals. Every success is built on shared insight, open communication, and teamwork.

WELCOME NOTE

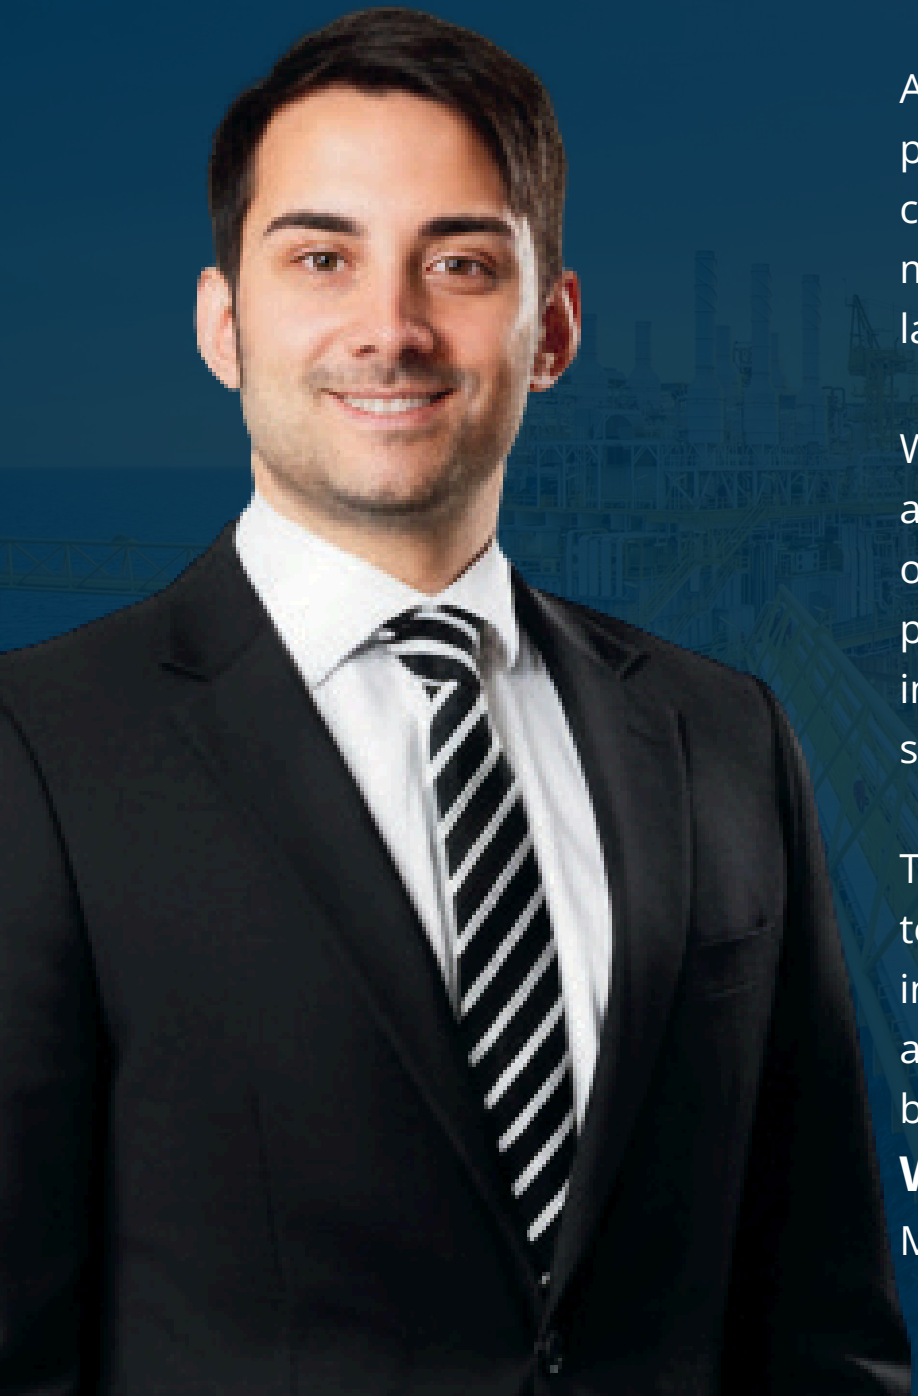
Welcome to the future of strategic energy and infrastructure.

At VecTrance, we do not just deliver services. We shape the foundation of decision-making for nations, industries, and the communities they serve.

Whether it is traditional energy, renewable innovation, infrastructure strategy, or emerging technologies like AI and space systems, our mission is to engineer intelligence, sustainability, and resilience into every layer of development.

With the launch of Nabir VecTrance Global in Bangladesh, we are proud to extend our global expertise through a strong local presence, opening a new frontier of opportunity. I invite you to explore this publication as a gateway into our vision, our capabilities, and the possibilities we aim to unlock here in Bangladesh and beyond.

Fareed Nabir,
Managing Partner, Nabir VecTrance Global
Country Manager, VecTrance



WELCOME NOTE

At VecTrance, our journey has always been defined by innovation, precision, and collaboration. From our inception, we set out to build a consultancy that not only provides technical excellence but also drives meaningful impact across the global energy and infrastructure landscape.

With the launch of Nabir VecTrance Global in Bangladesh, we take another bold step toward that vision - extending our expertise to one of the most promising and dynamic regions in South Asia. This partnership embodies our commitment to empowering local industries through global knowledge, advanced methodologies, and sustainable practices.

Together with the Nabir Group, we aim to create a platform where technology, talent, and vision converge to shape a resilient and intelligent energy future. I welcome you to explore this collaboration - and to join us as we chart new possibilities for Bangladesh and beyond.

William Fucilla,
Managing Partner, VecTrance

NABIR VECTRANCE GLOBAL AT A GLANCE

Established in 2025, Nabir Vectrance Global serves as the Bangladesh arm of Vectrance, a global consultancy firm renowned for its excellence in the energy and infrastructure sectors. Building on Vectrance's strong foundation, established in 2011 and backed by over 15 years of proven industry experience, including more than 13 years of international project exposure across the United Kingdom, United States, Canada, Australia, the United Arab Emirates, and other regions worldwide, Nabir Vectrance Global brings world-class expertise to the local market.

As the local agent of VecTrance, Canada, and a sister concern of Nabir Limited, Nabir Vectrance Global operates as an associate partner in oil, gas, environmental consultancy, and supply-related business activities in Bangladesh.

We specialize in consultancy services across both traditional and renewable energy sectors, including onshore and offshore drilling, geothermal development, and clean energy solutions such as solar and wind. Our capabilities cover the entire project lifecycle, from feasibility studies and engineering design to HSE compliance, operational execution, and project optimization.

Guided by a leadership team with over 40 years of global project experience and supported by a multidisciplinary workforce trained to meet the complex demands of modern energy and infrastructure projects, we are committed to delivering safe, sustainable, and high-quality solutions tailored for Bangladesh and beyond.

WHO WE ARE

VECTRANCE and Nabir Vectrance Global, we are more than a consultancy .

- we are your local strategic partner in navigating the evolving landscapes of energy, infrastructure, and sustainable technologies. As part of the global Vectrance network, our foundation is rooted in integrity, innovation, and an unwavering commitment to client success. We understand that impactful results begin with a deep knowledge of challenges unique to each region. That's why we take a tailored, collaborative approach to every project

- ensuring that local insights meet global standards. Our team unites passionate professionals with diverse technical expertise and industry experience, all driven by a shared mission: to deliver intelligent, resilient, and future-ready solutions. At Nabir Vectrance Global, we don't just offer services - we build long-term partnerships to transform ideas into action and vision into value.

COMPANY BACKGROUND

Founded in 2011, Vectrance began with a clear mission: to bridge the gap between technical expertise and client- focused solutions in the energy, engineering, and infrastructure sectors. What started as a specialized consulting firm has grown into a globally connected enterprise, delivering services across traditional oil and gas as well as advanced renewable energy domains.

With over 15 years of industry experience and more than 13 years of international project execution across the United Kingdom, United States, Canada, Australia, the United Arab Emirates, and beyond, Vectrance has built a reputation for reliability, quality, and deep technical insight. Our multidisciplinary team combines engineering, environmental science, emerging technology, and strategic consulting, enabling us to address complex challenges with integrated and effective solutions.

As part of our strategic global expansion, Nabir Vectrance Global was established in 2025 to serve Bangladesh and the wider South Asian region. Operating as the local agent of VecTrance, Canada, and a sister concern of Nabir Limited, Nabir Vectrance Global functions as an associate partner in oil, gas, environmental consultancy, and supply-related business activities in Bangladesh.

With a dedicated office at House 3, Road 2/2, Banani, Dhaka, we are committed to contributing to the country's evolving energy and infrastructure sectors.

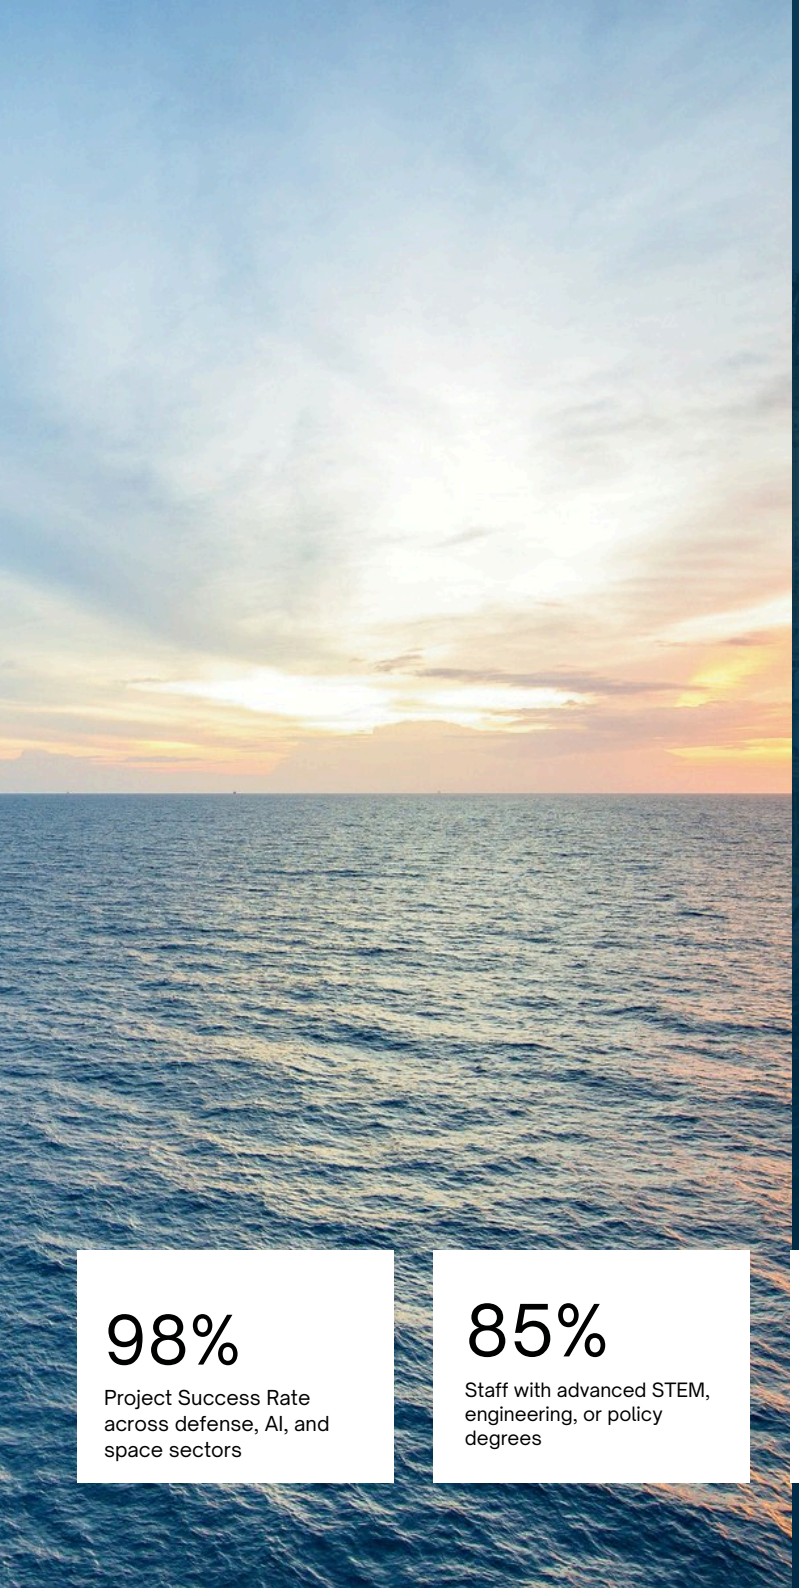
Our mission in Bangladesh is clear: to deliver world-class consultancy services across onshore and offshore drilling, rig and well operations, LNG and petroleum product engagement, and renewable energy projects including geothermal, solar, and wind. By combining global standards with local insights, we aim to support national development through sustainable, innovative, and technically sound project delivery.

WHERE WE OPERATE

Through our global network, Vectrance is actively engaged in high-value consulting and engineering projects across multiple continents. Our reach spans diverse energy markets and infrastructure sectors, allowing us to deliver localized solutions backed by global expertise.
As part of our strategic expansion into Asia, we have recently established a dedicated regional office in Dhaka, Bangladesh, under the banner of Nabir Vectrance Global.

Regions of Operation

- **Europe**: France, Germany, Belgium, Italy, Romania, Slovakia, Hungary, Netherlands, United Kingdom, Switzerland
- **Middle East**: Saudi Arabia
- **Africa**: Algeria, Senegal, Congo
- **North America**: Canada
- **Caribbean**: Trinidad
- **Asia-Pacific**: Bangladesh (New Regional Office - Dhaka)



WHY CHOOSE US

At Nabir Vectrance Global, we go beyond delivering services - we solve problems, unlock potential, and drive meaningful progress. Our client-centric approach ensures every solution is tailored, practical, and aligned with your long-term objectives.

Backed by the global strength of Vectrance and supported by a multidisciplinary team of experts with decades of combined experience, we offer both technical depth and strategic insight across a range of energy and infrastructure projects.

From oil & gas consultancy to cutting-edge renewable energy solutions, we prioritize quality, safety, transparency, and collaboration at every step. Whether you're launching a new initiative or optimizing an existing operation, Nabir Vectrance Global is your trusted partner - committed to delivering results, building long-term value, and contributing to a sustainable future for Bangladesh and beyond.

OUR PROCESS

Discovery

We begin by understanding your goals, technical needs, and project scope through collaborative consultation.

Feasibility & Planning

Detailed assessments and tailored project plans ensure every solution is technically sound, cost-effective, and compliant.

Execution & Supervision

Our expert teams oversee site activities, manage risks, and ensure safe, high-quality delivery - onshore or offshore.

Monitoring & Reporting

We provide regular progress updates and transparent reporting to keep stakeholders fully informed.

Handover & Support

Upon completion, we ensure smooth handover and provide post-project support if required.

OUR INTERNATIONAL LEGACY

Projects executed under VecTrance's global operations reflect our combined capability, expertise, and commitment to excellence. These accomplishments now power the foundation of Nabir Vectrance Global.

🏭Energy, Oil & Gas

- Woodside – Offshore Commissioning, Senegal
- BP / EOG – Gas Plant Engineering, Trinidad
- Engie (France, Belgium, Serbia) – Compression Station, Gas Processing, WtE
- Sonelgaz – Gas Power Plant Revamping, Algeria
- ABB Italia – Substation Projects, Algeria
- Perenco – Offshore Operations, Congo

Cement & Construction

- CRH, Holcim, Heidelberg – Cement Plant Supervision, Romania, France, Germany
- Thyssen – HSE Services, Algeria
- Vica, Dalkia – Instrumentation & Power Plant Projects, France

⚗️Chemical & Industrial

- Solvay, Basf, Dow Chemical – Plant QA/QC & Revamping, France, Benelux
- Avril – Civil & Engineering Support, France

Pharma & Manufacturing

- Lonza – Pharma Plant Construction, Switzerland
- GSK – Planning for Pharma Facilities, France
- St Gobain / Isover – Manufacturing Plants, Canada, Slovakia, France

Infrastructure & Digital

- Eiffage, Egis, Oger – Civil Engineering & Railway Projects, Saudi Arabia, Netherlands, Canada
- Prologium, Verkor – Battery Gigaplant Projects, France
- Google / Digital Reality – Data Centre Feasibility & QHSE, France

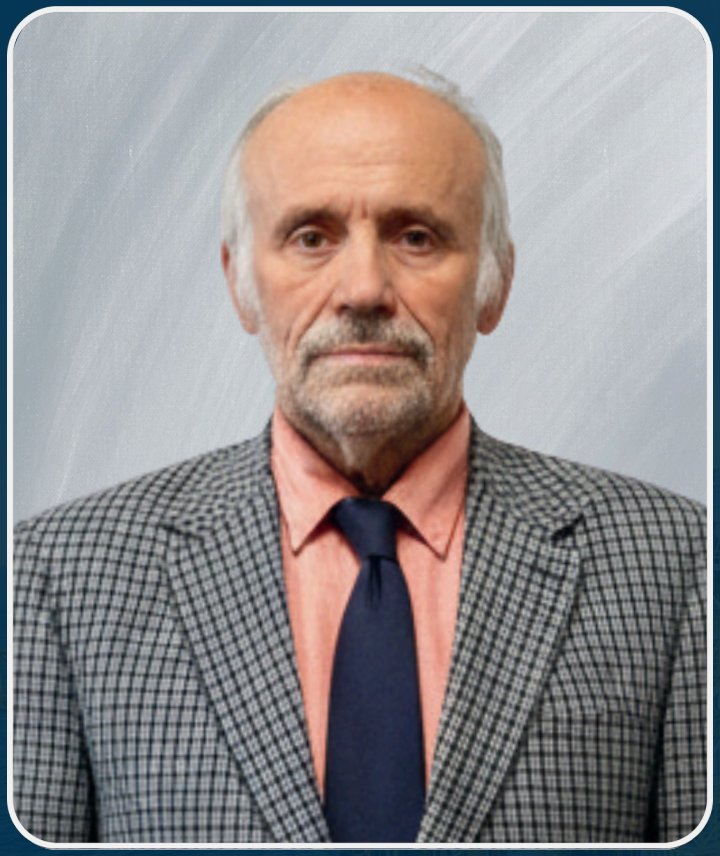
Fareed Nabir

Managing Partner, Nabir Vectrance Global
Country Manager, Vectrance Bangladesh
Founder & CEO, Nabir Limited

Fareed Nabir is a British entrepreneur and CEO with decades of leadership experience across the UK, Europe, and South Asia. Since founding Nabir Limited in 2015, he has transformed it into a diversified multinational conglomerate with operations spanning energy, agriculture, real estate, information technology, and philanthropy.

Under his guidance, Nabir Group has become a recognized market leader across three continents, known for its strategic growth, integrity, and community impact. Fareed is also the visionary behind the Nabir Foundation, which champions education, healthcare, and social welfare initiatives in Bangladesh.

As the Managing Partner of Nabir Vectrance Global and Country Manager of Vectrance, Fareed plays a pivotal role in bridging global expertise with local opportunity - driving innovation and sustainability in Bangladesh's energy and infrastructure sectors.



DrBrunoDeNantes

Chairman, VecTrance Group

Dr. Bruno DeNantes is a seasoned aerospace and planetary sciences expert with decades of experience in orbital mechanics, deep-space exploration, and asteroid resource extraction. He has worked with leading space agencies and research institutions globally. As an innovator in commercial space applications, he now focuses on advancing sustainable asteroid mining technologies.

WilliamFucilla

Managing Partner, VecTrance Group

William Fucilla is an experienced entrepreneur and investor with a background in energy, mining, and natural resources. He has been involved in developing strategic ventures across the world, particularly in the fields of oil & gas, renewable energy, and rare mineral exploration.

MdMazharulHakim

Business Development Manager
VecTrance Bangladesh

Mohammad Mazharul Hakim is a Business Development Manager with 20+ years of experience in the aviation and energy sectors. In 2025, he joined VecTrance Kappa, France, supporting energy sector growth across South Asia. He is also the owner of Mazhar Tex Exports, Bangladesh, and a partner at Nabir VecTrance Global.
